

# Dashboards for Transforming your Business

# PMG Dashboards: Everything you need, right at your fingertips

Interactive dashboards provide easy-to-understand status and management summaries, as well as an interface for working assignments and tasks. PMG's Digital Business Platform offers customizable views of the information you utilize most, delivering an optimal user experience via an unparalleled low-code capability.

Tailored to your business process, content may include process status, cost summaries, analyses for strategic decisions and management — or any data relevant to the user's needs. Dashboards are configurable, with graphical, interactive console views, or simple report-style listings providing drill down capabilities. And with data pulled and displayed dynamically in real-time, from any number of external data sources, process improvements that drive digital transformation are guaranteed.

# Manager Overview

Configure managerial dashboards easily and quickly with data widgets. A snapshot view created for your specific business needs delivers real-time information to keep abreast of the overall activity of your department, staff and projects.

# Summary View

The screenshot displays a user interface for a PMG HR system. On the left is a blue sidebar with navigation options: DASHBOARD, MY PROFILE, FORMS, MY ACTIVITY, and REPORTS. The main content area features a user profile for Gabe Pirela, a Business Consultant in Professional Services. Below the profile are sections for 'My Tasks' and 'My History', each with a 'See More' link. To the right, there are three summary view panels: 'Devices' showing a Computer (Serial #: HW-551) and a Cell Phone (Serial #: HW-546); 'Applications' showing MS Project (Serial #: SW-547) and MS Visio (Serial #: SW-548); and 'Services' which is currently empty. The top right of the dashboard includes a welcome message 'Welcome, Gabe Pirela' and links to 'Solutions' and 'Administration'.

Provide summary views to display the most relevant information associated with an individual person, project or task.

# Project Profile

The screenshot shows the Construct MDR Project Profile page for Project 675 - North DeKalb. The page features a header with the Construct logo, a search bar, and a user greeting. The main content area includes a project status indicator (ACTIVE), a project details table, an activity feed, and sections for Active Projects and Project Actions.
