

PMG Proof of Concept

PMG. PROVEN.

PMG delivers Proven Digital Transformation. And we'd like to prove it to you— with an exclusive PMG Proof of Concept (POC). At no cost to you, we'll work with you to build a prototype solution based on your requirements. Experience the power of the PMG Digital Business platform and the speed of low-code application development firsthand.

WHAT'S THE CATCH?

There is none. There is no obligation to purchase the PMG Digital Business Platform at the end of the POC. We're that certain that we'll demonstrate the value of PMG within 30 days.

In our POC, we provide

- A cloud-hosted instance of PMG's Digital Business Platform for 30 days
- Up to 3 connectors to prove out integrations for your prototype
- 40 hours of implementation consulting resources

And we will deliver

- A working prototype of your use case

WHAT DO WE NEED FROM YOU?

A desire to maximize the value of your investment and deliver positive outcomes. To ensure a successful POC, we ask you for

- A defined, funded project scheduled to begin in the next few months for which a vendor has not yet been selected
- Access to the business process owner to clarify requirements
- A commitment to engage in daily status calls with PMG and to provide rapid responses to information requests
- Involvement by your project's key stakeholders and executive sponsor to maximize return on the POC

LET'S GET STARTED!

Let us show you how fast and easy digital transformation success can be. Then you can show your executive sponsor how you're driving value for the business in a matter of weeks.

PMG solutions frequently deliver up to 80% reductions in processing time that translate into real efficiency gains and hard ROI. During the course of the POC, PMG will help identify your process bottlenecks and will even identify other potential projects that will deliver value.

Let's get started right away!

" We provided several competitors the challenges we were facing.

PMG was the only provider to configure a solution specific to our needs, illustrating how the solution would work.

This effort showed us how PMG would value us as an actual customer, and we were sold. "
